

DAHLE Professional document shredder® 306(50310)

DAHLE 306

Innovative document shredder with MHP Technology® for superb performance - without any oil whatsoever

Description

- Team document shredder for professional use
- Oil- and maintenance free operation.
- Convenient feed and reverse function for manual control.
- Convenient automatic reversing function clears feed opening after feeding in too much paper.
- Integrated light barrier for automatically starting and stopping the document shredder, ensuring fast availability and safe use, and with user-friendly electronics
- Automatic shredding stops and optical signal in control panel when bin full.
- Motor cuts out automatically when waste bag is full or door is open.
- Separate CD feed opening and waste box for reliable, environmentally friendly shredding.
- Innovative MHP® (Matrix High Performance) cutters: high-quality compound steel cutters that are guaranteed to last.
- Patented manufacturing process preserves resources by considerable saving of raw materials compared to a conventional production of cutting cylinders.
- More performance and convenience by MHP cutting cylinders.
- With automatic motor cut-out after 30 minutes without use.
- Powerful motor for high capacity and longer running times.
- Clearly designed, user-friendly control panel with illuminated information and function unit and acoustic signals.
- Extremely quiet operation for a particularly pleasant working atmosphere.
- Widely opening doors for ease of emptying the waste bag.
- Convenient swivel casters providing 5 cm floor clearance for greater mobility and two brakes for keeping the shredder firmly in place.
- Separate main switch for completely shutting down the document shredder
- Practical IEC power connector can be unplugged from the document shredder
- Dimensions (H x W x D): 865 x 545 x 435 mm

Technical data

- | | |
|---------------------------|-------------------|
| ▪ Product name | : 306 |
| ▪ Entry width | : 260 mm |
| ▪ Shreds A4 70 gsm paper* | : 18sheets |
| ▪ Shreds A4 80 gsm paper* | : 20 sheets |
| ▪ Shred width in mm | : 5 x 50 mm |
| ▪ Security levels | : P-3/O-3/T-3/E-2 |
| ▪ Waste collection volume | : 60 l |
| ▪ dB (A) when idle | : 46 dB(A) |
| ▪ Speed | : 4.5 m/min |
| ▪ Wattage | : 650 W |
| ▪ Weight net: | : 39.0 kg |

* Maximum number of sheets which can be cut in a single pass under the following conditions: New cutting cylinders (oiled if necessary), cold motor, power supply with nominal voltage and nominal frequency (230V/50Hz; 120V/60Hz). Non-conformance can lead to a lower sheet capacity and increased running noise. Sheets are fed at 90° either portrait or landscape. The sheet capacity may vary depending on paper properties and feed.
